Kill, Marry, Fuc: Which Would You Choose?

Addictive Party Game Book Asks Which Celebrities You Would Kill, Marry, or Fuc

Part party game, part celebrity trivia, part voyage of self-discovery, and all laugh-riot scintillation, *Kill, Marry, Fuc* presents readers with trios of celebrities and objects, asking, Who would you kill, Who would you marry, and Who would you fuc? On each page you have the addicting power to take home your favorite star and kill off your least, with cameos from the sexiest starlet to the most repulsive reality TV personality.

Each trio of photos in *KMF* highlights a different quirk of stardom and popular culture. Author Sarah Huber makes electrically funny connections, from putting together a group of has-been gingers like Carrot Top to probing readers' reactions to bombshells from cinema's golden age. Each page is full of Huber's witty commentary and little-known facts that will appeal to snark lovers anywhere. A bit crude, very fun and funny, and completely irreverent, *KMF* will find a place in the homes of pop-culture connoisseurs the world over.

Give it a whirl! Who would you kill, marry, and fuc of...

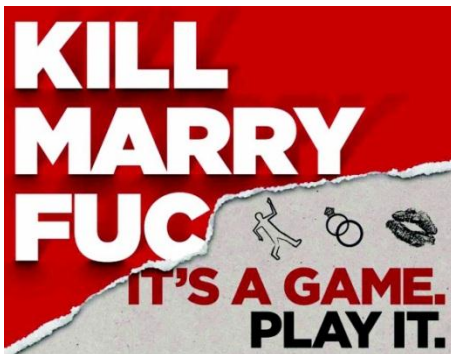

- **The Kardashians:** Khloe, Kim, and Kourtney
- **The Dictators:** Stalin, Hitler, and Mao
- **The Talk Titans:** Ellen Degeneres, Oprah Winfrey, and Tyra Banks
- **The Guidos:** Vinny, Ronnie, and Paulie D

Invite friends to play along with the book, and continue the fun with the *KMF* companion app, free at www.kmfapp.com, which includes global rankings so you can see how your choices stack up.

Sarah Huber graduated from Loyola Marymount University with a degree in Television Production and went straight to work for *Entertainment Tonight*. For the past five years she has worked as the voice over coordinator for ET's sister show, *The Insider*.

Mark Batty Publisher (www.markbattypublisher.com) is an independent publisher dedicated to making distinctive books on the visual art of communicating, showcasing the visual power and innovation of contemporary culture in all of its varied poses. Today, the visual comes at us from more places than ever, and its dissemination is faster and more advanced every year. Books from Mark Batty Publisher capture this acceleration on the pages of every book. Affordable, well designed, thoughtfully created, and produced to last, MBP books are artful products that readers want to hold onto forever.
